Mainland Racing

- Are the Championships we have now still relevant? What works well and what doesn't?
- What other type of racing formats would you like to see clubs host – either as a championship or at normal club regattas?
- What other types of Championships would you like to see clubs host? Eg Services, regatta ranking
- Drone footage and GPS tracking of races costs money – how would you like CPGA/clubs to fund this if it was to continue?

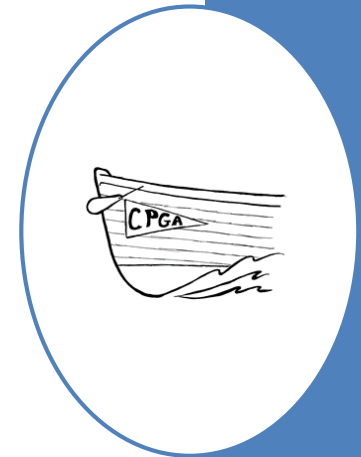

County Crew Racing

- Are the categories correct?
- Where in the calendar should the championship fit?
- Would you like to see more racing within county and regulated by a county structure?

Racing Rules

No 16

An overtaking gig, whether taking the port or starboard route, must keep clear of the gig being overtaken.

No 17

The umpires calling point will be marked with a buoy, approx 6 lengths from the turn.

The positioning of the umpire boat is critical, this needs to be discussed and clarified with the skippers/club prior to the first race of the day.

At this point the umpires will decide who has the advantage by assessing whether the bow of the port side gig has reached the coxswains seat creating an overlap.

They will then inform the crews using a loud hailer and VHF radio (if this does not affect the start of the following race). No crew should slow their gig on or approaching the mark as far as reasonably practicable once the call has been made, so not to create an obstruction to following gigs.

No 18

The gig which is given the advantage has the rights to the mark and the following gigs must avoid it whatever the situation.

Each following gig will be given instructions from the umpires. If the boat given the rights to the mark leaves a 'gap', a following gig can go into that gap – so long as they do not impede the gig with the rights.

No impeding on the stroke side or ahead of the number 5 oar it to take place.

Please also refer to rule 17 for further information.

Scillies 2020
